

AMENDMENT UNDER 37 C.F.R. § 1.111  
U. S. Application No. 09/214,865

*Contd*  
a data storage section, characterized in that said host computer comprises data collection means for collecting data provided by said multiple ultrasonic inspection systems via said transmission line and storing the data in said data storage section;

*D*  
wherein the data provided by said multiple ultrasonic inspection systems is stored in the single data storage section;

wherein the data is specimen inspection data and wherein said host computer further includes a determination means for analyzing the specimen inspection data and determining whether or not a specimen contains a defect.
